

# VINCENZO ISABELLA VALENZI

## BIOGRAPHICAL SKETCH

NAME: **Valenzi, Isabella Vincenzo**,  
(DOB 08.03.1959)

### POSITION TITLE:

Senior Scientist of  
Bioelectromagnetic Section of  
CIRPS (Centro Interuniversitario  
di Ricerca Per lo Sviluppo  
sostenibile) Rome

President of CIFA  
[www.cifafoundation.org](http://www.cifafoundation.org)

Director Integrative Medicine  
Department of UNIGLOBUS  
[www.uniglobus.it/dipartimento-di-medicina-integrata.html](http://www.uniglobus.it/dipartimento-di-medicina-integrata.html)

## EDUCATION/TRAINING

INSTITUTION(S) AND LOCATION	DEGREE(S)	YEAR CONFERRED
University of Rome, Italy	M.D.	1989/90
Biometeorological Centre Onlus Rome Italy	Fellow	1997/2015
Idro Medical School Rome	Fellow	1991/95

## RESEARCH AND PROFESSIONAL EXPERIENCE:

Past: Scientific assistant , Department of Medical Therapy University of Rome1, Italy (1990-2000)

Responsible Centre of Biophysics clinic , Chair of Sea Medicine, University Rome1 (2001-2007)

Professor of Climatotherapy Idrological Medical School of University Rome 1 (2003-20007)

Director of Institute of Biometeorology and Space Medicine Ludes University Lugano Switzerland (2007-2007) , Scientific Director of Digibio SA Paris founded by Jacques Benveniste (from 2008); Manager Nanectis SA Paris (2008/2009, Director Department of Integrative Medicine IURS Florence (Janvier 2014/ April 2015)

Prorector LIUM University Bellinzona CH from 2009 till 2012. Director of ISREP (Istituto di Ricerca Svizzero per l'Energia Psichica) LIUM 2009/2012.

Direttore del Dipartimento di Medicina Integrata dello IURS Firenze dal 2013 al 2015

Coordinator of Biometeorological Study Centre of Rome Italy (From 1999 till 2016)

Director of Department of Biomedical Science UNIMEIER from June 2015 till September 2017.

Present: ;

President of CIFA [www.ciffondation.org](http://www.ciffondation.org) (From 2007)

Senior Scientist of Bioelectromagnetic Section of CIRPS (**Centro Interuniversitario di Ricerca Per lo Sviluppo sostenibile**) **Rome**

Director Integrative Medicine Department of UNIGLOBUS Assisi

---

**HONORS:** Elected to the Board of his School the Institute Technical Industrial “E. Scalfaro” Catanzaro IT 1976-1978;

**SOCIETIES AND FUNCTIONS:.** Present:

*Co-Editor-in-Chief*, CIFA NEWS

Co Chair Scientific Board Association Jacques Benveniste pour la Research Paris

**Research:**

He has been conducting research on meteoropathy since 1980. With a group of physicists and doctors, he founded a Center for the study of biometeorology in Rome. He has conducted extensive research on climate therapy of the Appenine Molisano region studying the physio-chemical properties of the atmosphere and the thermodynamics of biological systems. The SEP (Skin Electric Parameters) measurement technique was also used for new diagnostic procedures about pharmacological intolerance. Since 1999, he has coordinated research within the General Command of Italian GdF about new techniques for discovering food and drug intolerance. He has directed a Parabolic Flight at Cape Canaveral (the BIOMET Project 2007) for the study of dystonic neuro-vegetative management of mineral water and drugs under microgravity . Research on Wellness, Performance Status and Music are developed from 2012. New programs of researches on Climatotherapy, Pharmacoelectrodynamics, Psychoenergetics are in developing for the next years in multicentric projects. From 2003 until now, he and Gianni Degli Antoni have been organizing annually a conference series called COHERENCE <https://www.vglobale.it/?s=COHERENCE> and Cosmos and Biosphere Crimean International Conference from 2003 <http://biospace.cfuv.ru/en>
